

COVID-19 TESTING IN KORČULA

PCR AND RAPID ANTIGEN COVID-19 TESTS

We would like to inform you that the Korčula Community Health Centre (*Dom zdravlja Korčula*) offers SARS-COV-2 swab testing with or without a referral letter, i.e. based on medical indications or non-medical indications (i.e. for work) respectively. The results can also be issued in English as needed. Referral letters for patients with medical indications for testing are issued by a family medicine physician.

In order to prevent COVID-19 infection, people who come for testing for COVID-19 with medical indications (symptoms of COVID-19 infection) must come for testing with their vehicle, must remain in their vehicle at all times, and must wear masks. People who do not have medical indications, in case of impossibility of coming to testing by vehicle, can come by foot, but must wear masks and keep a distance.
